MediaX

New communication platform

The MediaX multimedia points were specially designed for both indoors or outdoors use (with some protection) , for videos and multimedia presentations (such as Museums, Shopping Malls, Centers Shows, Exhibitions, Football Stadiums, etc).

This Kiosk support large displays (32" to 108").

This is an advanced and sophisticated communication platform for multimedia content in order to meet the most diverse areas of communication (advertising, institutional information, entertainment, etc.).

This model can be manufactured in stainless steel or painted steel (available in all RAL colors) using steel plate of 1,5mm to 2,5mm which ensures the stability and rigidity of the all structure.

The area where the PC will be installed has security locks, general switch and is easily detachable, leaving enough space for the installation and access to a minitower PC.

On the display side can be included two integrated speakers that fits smoothly in the all structure.

The MediaX is normally equipped with a Atom CPU with a 160 GB hard drive, 1 Gb Ram Memory, a 128Mb graphic card and a 10/100 mb ethernet, Windows 7 Starter.

If it's necessary the mediax can even be placed with an little inclination for a more perfect image. Alternatively, you may place it in a top of a table.

Technical Specifications MediaX Kiosk

Dimensions: H950 x W600 x D250
Weight: aprox. 45 Kg.
